ASSEMBLING YOUR CAMTREE HUNT MOD CAGE SHOULDER RIG KIT

- Attach 15mm rod adapter to Mod cage with help of provided knob and Slide the cage to sliding base plate, tighten properly as shown below.

- Now insert camera into the cage and tighten the screw with help of screw driver.

- Then, attach top handle onto cage and tighten the knob to secure.

- Attach camera set-up onto your tripod plate, now mount the set-up onto tripod and tighten the knob to secure.

- Insert 2x 300mm rails into rod adapter and tighten with provided knob as shown.

- Now insert straight bracket at back of rails and tighten with provided knob.

- Insert other two rails into straight bracket and tighten the knob to secure. Now insert A-Box into rails and tighten the knob as shown below.

- Loosen front cage knobs via allen key and insert A-Box wire to it.

- Then clip A-Box wire to rails with help of wire clamp.

- Now insert the shoulder pad as shown.

- Now insert handle set to front of rail system and secure with provided levers. You can also adjust the position of handles with the help of provided knobs.

- Attach gear ring to the camera lens and then attach Follow Focus by matching the teeth of gear belt with the drive gear as shown below.
